

# ITRAK 365 for Manufacturing

The most scalable and adaptable QHSE software solution for the manufacturing industry

ITRAK 365 is tightly integrated with **Microsoft Dynamics 365, Power BI and Azure**, allowing users to leverage the power and scalability that comes with the Microsoft stack. Our solution allows organizations of any size, to customize the software to their ever-changing workflows, enabling them to be more agile and responsive to operational risks.

## Key Benefits for Manufacturing

- Drives continuous improvement in the manufacturing process by facilitating quality checkpoints and product audits
- Facilitates regular maintenance activities, aids in machine guarding and extending the lifespan of equipment and machinery
- Facilitates proper operational and training procedures for manufacturing employees who operate a variety of equipment including fork lifts, motorized hand trucks and platform lift trucks
- Enables manufacturing companies to adhere to OSHA's safety standards, this includes keeping up to date on regulation changes, and reporting all incidents and close encounters

The ITRAK 365 interface is built with your end-user in mind.

## Key Capabilities

ITRAK 365 is used to automate a wide variety of QHSE business processes and comes with all the functionality you need to stay compliant in the manufacturing industry.

Streamline QHSE Processes	Centralize Reporting	Manage Competency	Improve Visibility
Incident Management	Real-Time Data	Job Safety Analysis	Escalations
Audits & Inspections	In-Depth Reporting	Competency Mgmt.	Alerts & Notifications
Hazard Identification	Visual Data Trends	Safe Work Procedures	Audit History
Risk Assessment	Flexible Export Tools	Employee HR Records	Import/Export Tools
Corrective Actions	Mobile Accessibility	Training & Exams	Custom Dashboards
