

ITRAK 365 for Oil & Energy

The most scalable and adaptable QHSE software solution for the Oil & Energy industry

ITRAK 365 is tightly integrated with **Microsoft Dynamics 365, Power BI and Azure**, allowing users to leverage the power and scalability that comes with the Microsoft stack. Our solution allows organizations of any size, to customize the software to their ever-changing workflows, enabling them to be more agile and responsive to operational risks.

Key Benefits for Oil & Energy

- Facilitates user-friendly incident reporting and hazard identification for field operations
- Assists in conducting scheduled field inspections in order to meet regulatory requirements
- Enables better environmental practices through water crossing and right of way inspections to mitigate risks of spills and other environmental incidents
- Assist with the scheduling and reporting of pigging activities for pipeline maintenance
- Improves operational efficiencies and reduces downtime by facilitating processes such as well repair requests
- Improves communications from the field to head office through the use of mobile tech

The ITRAK 365 interface is built with your end-user in mind.
