

SUMMER SERIES. MASTERCLASS

Become an ITRAK 365 Hero and join us on a journey to go deep within EHS and our powerful Microsoft enabled all-in-one platform!

This summer, join the ITRAK 365 Team of EHS and Technical Experts in an expansive series of educational virtual sessions to increase your understanding of EHS and the ITRAK 365 solution! See how ITRAK 365 has become the #1 choice for organizations leveraging the Microsoft Cloud with superior processes, configurability, and integration across the Microsoft Dynamics 365 and Power Platform software suite.

Session Types

Functional

This series will show all of ITRAK 365's new and featured processes.

- Incidents
- Risk & Hazard Registries
- Competency Management
- Inspections/Audits
- Training & Certification
- Disability Management

Technical

To see more of the Microsoft backend technology, technical roadmaps and more technical processes.

- System Primer/Platform/Backend
- Power BI
- Power Apps & Power Automate
- Roadmap/Vision

Who Should Attend? (All sessions are recorded and available to attendees after event)

Customers Learn about new areas of ITRAK 365 or pick up tips and techniques for using it more effectively in your organization. If you're an existing customer with Premium Support, join us for no charge!

Future Customers Want to learn more before committing to ITRAK 365? Join us to see the depth of the platform and how the solution can leverage your Microsoft investments and be configured to your organization's specific needs.

Partners Do you already have a Dynamics 365 or Power Platform practice and want to learn more about the rapidly growing needs in the Environmental, Health and Safety (EHS) industry?
