

ITRAK 365 for Utilities

The most scalable and adaptable QHSE software solution for utility providers.

ITRAK 365 is tightly integrated with **Microsoft Dynamics 365, Power BI and Azure**, allowing users to leverage the power and scalability that comes with the Microsoft stack. Our solution allows organizations of any size, to customize the software to their ever-changing workflows, enabling them to be more agile and responsive to operational risks.

Key Benefits for Utility Providers

- Assists in maintaining service quality throughout the supply chain
- Assists with proactively managing electric utility hazards, such as electrocution, falls, confined spaces, fires and explosions
- Enables better safety practices and ensures regulatory compliance
- Increases operational effectiveness and minimizes the potential for service disruptions
- Helps to reduce workplace accidents and maintain a positive public perception

The ITRAK 365 interface is built with your end-user in mind.
